

BRIAN CHARLES O'REILLY

FRONT END WEB DEVELOPER

416.998.2473 | BRIANCHARLESOREILLY@GMAIL.COM
briancharlesoreilly.com | github.com/briancharlesoreilly

PERSONAL BACKGROUND

A creative at heart with solid leadership and managerial experience in the hospitality industry as a (former) small business owner. Classical training in solid wood cabinet making led to several years of bespoke furniture design and building, rounding out a lively and unique work history. Quick to learn, highly adaptable, with a penchant for forward thinking and novel technologies, such as immersion in developing web 3 technologies. Outside of work you'll find me obsessing over gaming (love RPGs), music (I've toured North America six times), and books (bury me in the library) as well as honing my backend skills (currently Python) and Ethereum/blockchain coding (Solidity).

SKILLS

- HTML5
- CSS3 and SCSS
- Responsive Web Design
- Web Accessibility Standards
- Javascript (es6) & JQuery
- React
- RESTful APIs & Firebase
- Python (learning)
